

Aerodur 2122 Touch-Up Primer

Aerospace Coatings

Small volume touch-up kits for easy use at the point of repair

Our 2 oz Aerodur 2122 Touch-up Primer kit contains a lead- and chromate-free, corrosion-inhibiting epoxy primer for use on aerospace equipment. Qualified to LMA-MR058, Class 1, Form 1, this kit is especially suited for your smallest repairs.

This product is packaged in a simple, ready-mix, two component kit and is both easy to apply and fast drying. The kit is precisely measured to eliminate mixing errors and to help you reduce liquid waste. The self-contained package means there's no need for additional containers and no messy cleanup. Once mixed, simply dip your brush* and apply.

- Qualified to LMA-MR058, Class 1, Form 1

Intuitive and easy to apply

- Pre-measured and ready-to-mix
- Brush application directly from the kit
- No clean-up
- Fast-drying

Sustainable and safe

- Reduce liquid waste with a 2oz kit
- Free from lead and chromates

* Brush is not included in kit.

Directions for use

To use Aerodur 2122 Touch-up Primer, follow the simple steps below.

The kit arrives in an easy-to-open sealed bag.

Add the Curing Solution (B) to the Base Component (A).

Shake the bottle so that the Curing Solution and Base are mixed thoroughly.

Your Touch-Up Primer is now ready to use.
