## DESCRIPTION

Cleaning agent specially developed for cleaning and rinsing equipment used for the application of waterborne products.

---

### Safety Considerations

#### Use suitable respiratory protection

AkzoNobel Car Refinishes recommends providing adequate ventilation. Where reasonably practicable, this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and solvent vapors below the OEL, suitable respiratory protection must be worn. Use safety eyewear designed to protect against splash of liquids.

In addition to respiratory protection, always wear solvent resistant gloves while cleaning or degreasing, even if working with a low solvent degreaser. This will reduce the risk of cleaning solvents being absorbed into the skin and prevent salts and oils on your hands from contaminating the surface to be refinished.

## DESCRIPTION

Cleaning agent specially developed for cleaning and rinsing equipment used for the application of waterborne products.

## PRODUCT AND ADDITIVES

**Product** Guncleaner WB - Item #391581

## METHOD OF USE

### Basic Raw Materials

Water and solvents

### Application process

#### Before application:

Before spraying water-based products, rinse the gun with Guncleaner WB.

#### After application:

After emptying the spraygun, immediately rinse thoroughly with Guncleaner WB. Next, dry both the outside and inside of the gun by use of a cloth or pressurized air.

**Note:** Do not allow aluminum equipment to soak immersed in Autowave Guncleaner. It is advised to select a gun specifically designed and solely to use with water borne products. It is strongly advised to select a spray gun for waterborne products only.

## ADDITIONAL INFORMATION

### Product Storage

Product shelf-life is determined when products are stored unopened at 20°C.  
After contact with water/moisture product will have limited shelf life.  
Avoid extreme temperature fluctuation.  
Product shelf life 4 years at 70°F (20°C)

### VOC Information

#### Ready to Spray VOC

Guncleaner WB Maximum (24 g/liter)
